

Simon J. Oh

Patent Agent

soh@sughrue.com

Washington, DC

202.663.7443

Simon is an experienced patent agent at Sughrue Mion PLLC, focusing on application preparation and prosecution in the chemical arts. His practice areas include display technologies (including OLED, QLED, and flexible displays), thin-film transistors, semiconductor materials science, polymer coatings, and polishing compositions.

Prior to joining Sughrue Mion PLLC, Simon practiced as a patent agent at a firm in the Washington, D.C. area, where he managed the chemical practice group. He is also a former patent examiner at the U.S. Patent and Trademark Office (USPTO) where he examined applications relating to pharmaceutical formulations, medical implants, and polymer chemistry.
